FRONT-END DEVELOPER

Objective in front-end development with transferable skills such as journalist.

I seek to apply my experience in project management and decision-making decisions in a front-end developer role. With a proven track record in operational efficiency, I am prepared to create interfaces visually attractive and functional. My front-end development skills can add value by providing an improved user experience driving innovation in the construction of interactive solutions.

Skills you can add:

Analytical capacity | Creativity | Attention to detail | Decision making

Soft Skills:

Time management | Good communication | Self-education | Collaborative spirit | Critical thinking

Professional Experience

Jornal O São Gonçalo, São Gonçalo, RJ (2014-2015)

Journalist

Reporter responsible for covering the entire police area of the municipalities of São Gonçalo, Itaboraí, and Niterói. In addition to also covering the culture area.

Achievements:

I received recognition from the editorial team and positive feedback from the public, cementing a reputation as a reliable and efficient reporter in covering local events.

Jornal Itaboraí, Itaboraí, RJ (2013-2014)

Reporter

Focused on covering local events, investigating news and presenting comprehensive reports.

Achievements:

I demonstrated adaptability to dynamic situations, thus ensuring efficient and high-quality coverage.
